

La Maison Passerelle

Developping a radically alive and
cooperative culture with all
living Beings

**CULTURAL RESEARCH
AND INVENTION CENTER**
Worldwide - in Pyrenees FR

La Maison Passerelle

Living research sanctuary for a **radically alive,**
cooperative culture. We develop **human potentials,**
empower community, anchor into Earth agency,
visibilize it with arts and science

CRIC

WE WANT ...

EMPOWERED HUMANS WITH EARTH AGENCY

WHAT IS A CULTURAL RESEARCH AND INVENTION CENTER?

La Maison Passerelle* is part of a global network. It is a **place for experimenting** with a culture of **regenerative cooperation** for people, living beings, and the Earth.

La Maison Passerelle* means bridgehouse

We develop 4 key skills:

- Connection to living Beings and ecosystems
- Radical cooperation to foster healthy relationships
- Openness to multiculturalism and transdisciplinarity
- Self-Reflection Through Creativity and Emotional Autonomy

Embody
a Culture of
Cooperation!

DO WE REALLY KNOW HOW TO COOPERATE?

The realities we face today:

Loss of trust and distrust of others

Individualism and Isolation

Depression and **burnout**

Eco-anxiety, solastalgia (loss of life)

OUR EFFORTS ON THE GROUND

Permaculture trainings

Exploring the connection between humans and nature, transforming agricultural practices. Supporting individuals, citizen groups, and businesses in transformative corporate social responsibility (CSR).

Biodiversity regeneration

Sanctuarize natural areas, strengthening the human connection with other living species

Mediation Practices

Clarity in relationships, conflict resolution, immersion in cooperation, and the exploration and practice of emotional intelligence.

Developing an Ethical Culture

Demonstrate the feasibility of cooperation by producing resources derived from research (articles, podcasts, videos, creation of shareable tools, etc.)

Our projects :

- **Workshops, training sessions, and courses** on the arts, cooperation, and permaculture.
- **Hosting corporate and group seminars** in a setting **surrounded by nature**.
- **Social Research and Permaculture: A place for living and agricultural production, cultural transformation residencies, and the development of resources for experimentation in everyday life.**

**FOR A REGENERATIVE LIFE BUILD ON
AGENCY, LOVE AND COOPERATION**

Fun'raising of La Maison Passerelle

Here we answer the questions:

1

What are we making?

How will we impact the world?

2

What progress have we made?

3

Why are we the right persons?

4

What are we gonna do with the donations?

5

6

When will La Maison Passerelle be opened officially?

What are we making?

1

We are purchasing a plot of land, a house, and a barn to further our research on regeneration. We promote a regenerative culture through inspiration, experiences, communal living with children and adults, emotional autonomy, Earth Agency, multicultural connections, and experimenters' residencies.

How will we impact the world?

2

- By emphasizing coaching and transformative decision-making.
- By improving soil fertility, the nutritional value of food, and the diversity of species.
- By demonstrating the feasibility of this project through arts and sciences.
- By encouraging the creation of other CRICs around the world.
- By establishing a thriving economic system.

What progress have we made?

3

We facilitated:
spaces dedicated to the "Radical Relations and Integration" residency
2 Cooperative Dives
"Rage Clubs" and "Possibility Menus" at the market
"Re-Indigenization" circles
created a game called "What Do the Potatoes Feel?",
and developed a process to help people reconnect with the Earth

4

**Why are we
the right
persons?**

We are village weavers. We've felt the wound of separation through parenthood traumas and relational exhaustion. We spent our lives researching other ways to build trust & emotional literacy, empower humus & humans regeneration and ways to ground it

5

**Qu'allons-
nous faire de
vos dons ?**

We pledge that, should the purchase plan not come to fruition, we will retain the donations raised to continue our efforts over the long term and acquire another plot of land.

If you have selected a reward, it will be delivered to you between 1 and 3 months after the campaign ends. If we were to cancel the project entirely, donations without rewards will be refunded; donations with rewards will still be delivered (Artizen funding).

6

**Quand est-ce
que La Maison
Passerelle ouvrira
ses portes ?**

For the past three years, we have been opening spaces in Bagnères-de-Bigorre and the surrounding area to raise awareness of our project. The physical space—the house, the barn, and the grounds—is scheduled to open in early 2027, in January or February.

And the land?

1 Hectare of
forests

1 collective house
1 Barn

a natural space
where to:

1. cooperate
2. inhabit

A collective
spaceship
